CITY POLITICS.

Tammany Aldermanic and Assistant Aldermanic Conventions.

A Splendid Reform Ticket Inaugurated-The Serehead" Democracy Put a Full Ticket in the Field-Canvassing at Police Headquarters-The Republicans Baulky.

The Convention which was organized on Monday at Tammany Hall, under the chairmanship of the big Judge, assembled last evening, pursuant to admrament. There was present at the appointed me an immense crowd of the faithful un-prrised, and but little time was lest in getting to work. Shortly after the Judge had doffed their "tiles" and pulled the "buts" from their mouths, the Tall Senator from the Seventeenth ward arose and proposed that a committee of one from each ward be appointed to select Aldermen at arge. This was in accordance with the plan de-ided upon at the caucus held in the afterno n, and, athough the majority of those present did not inderstand that persion of the programme, it was manimously adopted. The chairman appointed the ollowing named gentlemen as such committee:— Pirst ward, Michael Halpin; Second ward, A. J. Fullerton; Third ward, James Hoare; Fourth ward, James Dunphy; Fifth ward, C. Puckhafer; Sixth ward, M. T. Brennan; Seventh ward, W. M. Tweed; Eighth ward, Michael Norton; Ninth ward, William G. Bergen; Tenth ward, John Scott; Eigventh ward, Charles E. Loew: Twelth ward, H. W. Genet: Th's teenth ward, T. G. Campbell; Fourteenth ward, John Hays (Sec'tary); Fifteenth ward, Douglas Taylor Sixteenth ward, James Watson; Seventeenth ward, T. J. Creamer (Chair); Eighteenth ward, James S. Hennessy; Nineteenth ward, Terence Fariey; Twentucth ward, Peter B. S. veeny; Twenty-first ward, R. B. Connolly; Twenty-second ward, Hiram Calking.

The committee retired, and after a short delibera-

theth ward, Peter R. Sveeny; Twenty-arist ward, R. B. Connolly; Twenty-second ward, Hiram Calking.

The committee retired, and after a short deliberation returned and reported that they had selected the following named gentiemen as

Moses Taylor, Oswald Ottendorfer,
Royal Phelps, Lawrence R. derome.

The announcement of these names was received with loud and long-continued applause. On motion of Mr. T. C. Fleds the committee was continued, with power to name the remaining eleven Aldermen to be the candidates of the democracy at the coming election, after which the Convention adjourned. Tals adjournment was to the majority somewhat unexpected, as it was supposed that the would be made last night. It was found, however, that there were so many interests to conclinate there would necessarily be a great deal of bad feeling generated, and it is hoped that the conmittee named will be able to conclinate the opposing forces. At present the feeling seems to predominate in favor of Terence Buffy, Thomas Coman, Edward Cuddy, George Mitchell, John R. Floyd, James Irving, Edward Welch, James G. Dimond, Henry Woltman, Samuel A. Lowisland George W. Plankitt,

The opposition in the First district seems to be the worst, Nicholas Muller is looked upon as a strong man, but as the First ward has hat an the past and has at present representatives in four of the best offices in the gift of the people, it is more than probable that it may be concluded to skip it in the "new deal." However, no lang definite can be said in the master at present, but it will be finally defermined in a few days. For the

ASSISTANT ALDERMEN

there are any quantity of nominees. Andrew D. Portell stands a good chance for more than ordinary intelligence and much political experience, he may count on a "mare thing," in the Eighteenth ward and, as he represents that portion of the other ordinary intelligence and much political experience, he may count on a "sare thing," in the Eighth ward has a proposal and worthy candidate, he too may count on a "sare thing,"

Tammany Assistant Aldermanic Conventionmet last evening, and the following nominations

1-Hugh O'Brieu. 14—John Reilly. 16—Eugene Dürnin. 17—Charles Feitner. 4—John Galvin. 5—Isaac Robinson. 6-Michael Heary.
9-Henry Rogers.
10-Henry A. Fecher.
13-James Barker.
18-Parts. Second, -Michael Healy. 18-Patrick Garry. Tweifth, Fifteenth and Twentieth District Conven-

Tammany Hall Reform Party-They Char Hands with Tammany's Vanquished Foes. The new Tammany Hall democratic reform party held a me ting last evening at Germania Hall, Third avenue, delegates from all the wards being present, Joseph Levy, of the Twentieth ward, nominated Jacob Cohen as chairman, which was carried. Mr. Cohen, in assuming the position, made an appropriate address, in the course of which he expressed a doubt as to whether the State really is democratic, and argued that the true rank and file of the party were mere tools of the leaders. On motion, a committee was appointed to cafer with the young democracy, after which the following resolutions were adonted:—

Resolved, That the new Tammany Hall democratic reform park are the only true representatives of the democracy of the city and county of New York.

Resolved, That we will endouse only such candidates as are bonest, capable and true democrate and of true democrate principles, articity adhering to the principles of democracy as demonstrated by Jackson and Jefferson.

Resolved, That in James O'Brigh we find a person who is and always has been true to the democratic principles, and by whose energy the State of New York has achieved a democratic victory.

Resolved, That we shall faithfully work for the benefit of the people, and nominate, endorse and vote for only such citizens as are true to democrate principles.

Resolved, That a committee of — from each ward be appointed to wait upon and present to James O'brien a copy of these resolutions. The committee were also instructed to report on

the different candidates, after which the meeting ad-journed, subject to the call of the Chair.

The Republican County Convention met last even ing to hear the report of the committee appoint d ing to hear the report of the committee appoint of the confer with other organizations in relation to a condition against Tammany Hall. The committee reported progress and asked to be allowed to sit again, with power to arrange a licket. After some debate it was moved that the committee be allowed until the overhing to report, and that then the Convention take immediate action. The motion was carried and the Convention adjourned.

To the Epitos of the Harald!—
As one of the Sachems who signed the address of which Mr. Congressman Fox complained in a letter to your paper because that the said address charged him with being absent from his seat, permit me to charge him distinctly with fat-iscation of his record. It is a maxim of evidence that what a man is bound to know by reason of personal presence of fpersonal absence he is bound to state truly or be convicted of deliberate falsehood. The following is from the HERALD Washington despatch of January 10, 1870:—

This changes the result, giving the radicals a majority of one—the Speaker with his wise—so the motion to reconsider was carried. Had the democrate been out in full four the resolution would have been adouted despite the radicals. As it was, however, there were just enough absent to allow it to be defeated. The following democrate from New York were absent:—for, Morrisoy, Fother, Greene and Maybem. Any two of these gentlemen being in their seats when the votes were taken would have saved the resolution and put Virginia half way into Congress.

I beg to submit the above extract in proof of my MANHATTAN CLUB HOUSE May 10, 1870.

THE OUTS'DE DEMOCRACY.

"Terrible" (?) Array Against Tammany—A Ticket in the Field—Will it be Elected? All the democratic elements, factions and fractions, opposing Tammany Hall assembled last evening at Masonic Hall, in Thirteenth street, for the purpose of unroofing the old "Wigwam" and scattering its ashes to the winds. Previous to the regularly organized convention a caucus of about twenty-one members from the various political organizations op-posed to Tammany was held, and in that caucus were such men as General Frank Spinola, ex-Alderman Billy Walsh, Colonel Bagley, of Sixty-ninth fame; Judge Ledwith and, chief among the chiefs, Robert B. Roosevelt, who said he was not responsible for the meeting and wished that the HERALD "would let up on it." The cancus having been

brought to a close, a big crowd of the "outside democracy" assembled in a large hall attached to
Masonic Hall, where Judge Ledwith was duly,
though rather informally, installed as chairman of
the Convention.

Mr. Shith Ely then reported from the caucus
the following slate, which was of course endorsed
and carried anni acclamation:

For Judges of the Court of Common Pleas—
For Judges of the Warne Court—John A. Stemmler, William A. Boyd and Benjamin Franklin
McCahlil.

For Aldermen—William F. Haveymeyer, John G.

McCahlil.

For Aldermen—William F. Haveymeyer, John G. Davis, Edward Burke, George H. Marshall, Daniel F. Tieman, F. V. Enring, John S. Glies, John Foley, William Mitchell, William H. Grey, David Koehler, Lowis J. Keily, Joseph Blumenthal, Nelson W. Young and Clareace A. Bonner.

In the caucus for the Marine Court Mr. Thomas Dunphy was tendered the nomination, but modestry (c) declined.

After the organization had been called to order by Judge Ledwith,

A committee of five was appointed to wait on the nominees and inform them of the action taken. The following committee was appointed for that purpose:—Messrs. Lamb, Dunphy, Spinola, Ely and Schmitz.

letter.
Mr. REYMERT, the nominee for the Common Pleas, next addressed the meeting, and vowed the same kind of vengeance it elected.
On motion of Mr. John Folky the Convention adjourned, subject to the call of the Chair.

POLICE HEADQUARTERS IN UPROAR.

of Election.
For two or three days the Central Police Building In Mulberry street has been the Mocca to which hungry politicians made pligrimages. Oakey Hall as hung out his sign notifying them that it is useless for them to apply to him for office, and the unterrified and unwashed rush to the heads of the departments. The last resort of a needy and seedy ward politician is the police force, and a position on it he will accept when all other avenues for him to

erve the public are closed.

On Monday at an early hour the hungry rabble commenced flocking in, and during the entire day they thronged the halls and corridors, much to the disgust of officer Davidson, detailed specially to keep the halls clear; the superintenent of

disgust of officer Davidson, getatled specially to keep the hails clear; the superintenent of Police, who abhors a crowd, and the Commissioners, who for hours were bored by friends of the applicants. Some desired policement's positions; others that of inspector for the coming election. Some were successful, others defeated. The Mayor, Peter B. Sweeny, Elg Six Tweed, Harry Genet, Senstor Norton and others were about during the day, as well as many shining lights of the young democracy, who danced attendance upon Bosworth, Brennan and Smith, and asked for the appointment of their friends.

Great as was the rush on Monday, the scene yesterday far eclipsed it. By ten o'clock a long line of as yillanous a looking crowd as ever collected was formed in the lower hall, extending up the stairs to the second floor, down the hall to room No. M and to the entrance of Ohef Clerk Hawley's office, where, by the grace of God, the influence of friends and the signatures of the Commissioners, they were made policemen. The physiognomies of the motley groups were, indeed, a study. A few betrayed some intelligence and respectability, but the great mass were savage-looking creatures, with broken probosces, scarred faces, retreating foreheads and countenances that betrayed the animal instincts faily developed.

Another line of loiterers was formed leading in the opposite direction, viz., for the rooms of Commissioners Brennan and Manterre.

They were the applicants for the office of Inspectors of Election, and in general appearance were little better than the other gang. Among the leaders who chaperoned them were Norton, Genet, Creamer, ex-Supervisor Fox, Terence Farley, Alderman Cunningbam and Commissioner Brennan and Manterre ex-Supervisor Fox, Terence Farley, Alderman Cunningbam and Commissioner Brennan and mantere leit relieved and best a hasty retreat—the former to his quiet home in the suburbs, the latter to the office of his friend and counselor, Captain F. P. Burden, of the Twenty-intuh predict police. In the two days there w

THE NEW REGIME.

The Park Commissioners and the Anti-Slavery Folks-The Other Side of the New Post Office Fonce Controversy.

The new Board of Park Commissioners, under the presidency of Mr. Peter B. Sweens, naving approved of allowing a space in the Park for the erec-

THE MONUMENT TO DANIEL O'CONNELL. it seems has given rise to an erroneous and erratio opinion on the part of the anti-slavery fanatics, as

follows:—

The new Central Park Commissioners last night revolved upon the erection, at the city's expense, in the Park, of the matter of one of the most outspoken and determined about lossists, one who decounced negro slavery in most cloquent language, Daniel O'Conneil. Surely opinion has greatly changed when a democratic commission erects in the public park of a democratic edity a monument to one of the foremost anti-slavery men of the age.

This is a rather highly colored statement. The

FACTS IN THE CASE

are that the O'Connell Association, of which Mr. T. Daly is President, proposed to eres the monument at their own expense, and had applied to the Commissioners for permission to erect the monument in the Park. The Commissioners, recognizing in O'Connell the representative of a truly great people and a celebrated patriot and statesman, had granted the permission asked for. Thus it will be eeen that the anti-slavery folks have but little material on which to make political capital in this regard. In

THE NEW POST OFFICE DIFFICULTY.

The following communication will explain itself:—

DEPARTMENT OF PUBLIC PARKS,

HOB. CALVIN F. HURLBURD, Superintendent of Construction of Post Office at New York:—

DEAR SHE-That I may not be missinderstood, allow me to
repeat what I said the other day at my interview with Mr.

Mullett and yourself.

repeat what I said the other day at my interview with Mr. Mullett and yourself.

The Department of Public Parks, having charge of all the city squares and public places, desire to put the City Hulliark in a proper condition, and are of opinion that you do not need so much of the park as you have enclosed for others, &c., and, besides, are not willing that fences and buildings creeted by you on the public grounds shall be let out at a compensation for posling placards, giving an unsignity appearance to the most prominent public square in the city.

out at a compensation for posiing piacards, giving an unsignity appearance to the most prominent public square in the dity.

We have also, as appears by the resolution passed by the Board, determined to widen the carriage way on Broadway and Fark row to the extent of the sidewalks of the park, so that the crowd of vehicles usually passing may be relieved as far as possible.

I distinctly stated to you both that, in carrying out this purpose, we did not desire to inconvenience you in the erection of the Post Oline building, and therefore requested that you would inform as of the least space you really needed in carrying on your work.

Instead of responding to this request I find several of the newspapers have been given an erroneous and peculiar version of our interview; and, although you stated to our clerk that you have had no interview with the press reporters, yet I cannot but believe that the matter published has been furnished by you or some one by your authority.

Under these erreumstances the duty has been furnished by you or some one by your authority. We learn that in addition to the ground purchased from the city authorities by the federal government for a Post Office you occupy of the City hall Park a strip of land about one hundred text in width, extending from Broadway to navigeness and the point and interrupting the public travel across the Park at a most important point, and also interfering with our proposed important point, and also interfering with our proposed important point, and also interfering with our proposed important point, and as a local content of the products. Provenents.

Further, you occupy the sidewalk on Broadway unnecessarily after you have built your inside retaining wall, and thus prevent our widening the carriage way to the extent proposed.

Besides.

sarily after you have built your inside retaining wall, and thus precent our widesing the carriage way to the extent proposed.

Besides, you have used the Battery as a dumping place for the dirt and sand excavated by you, thus interfering with the public use of the Battery, and to that extent preventing our improving it and making it a place suitable to its character as a public ground.

To ascertain how far this was necessary I requested the eminent architect, Mr. John Kellum, who has had great experience in constructing large buildings upon Broadway and eisswhere, to examine and advise me whether you really required this amount of saira space to conduct properly your work of constructing the Post Office. He informs me that he has done so in conjunction with the well known and experienced builder, Mr. William R. Stewart, and experienced builder, Mr. William R. Stewart, and reports that you do not need any other space than that actually purchased of the city by the government. That, in fact, apreading your works as you have done is productive of an actual unnecessary expense, and that your building could be carried on more conveniently and at less cost if your offices and tool houses were erected within the precent wats of your building; that the space there, now unoccupied, is ample for the purpose and all that absence of any communication from yourselves on the sub-

will not meet until Thursday. Their new and hand-some offices, in the building of the New York Life Insurance Company, will by that time be in reall-ness and the work of the department will be fitly

THE ANNIVERSARIES.

Brilliant Gathering of the Charitable and Benevolent Organizations of New York-The Howard Mission, Christian Union, National Temperance Association, &c.

American and Foreign Christian Union The anniversary meeting of the American and Foreign Christian Union was held last evening at the Young Men's Christian Association Hall, Mr. William A. Booth occupying the chair. This association was formed in 1849 by the consolidation of three societies, each of which had for its object the evangelization of Romanists both at home and abroad. An abties, each of which had for its object the evangelization of Romanists both at home and abroad. An abstract of the annual report presented by the directors last evening shows that during the existence of the society the sum of \$1,620,273 has been collected and expended in the employment of laborers and the printing and circulation of tracts and works for the furtherance of its objects. The seport also states that a study of the work of the society reveals great fidelity on the part of the laborers and shows that the organization has borne an important part in the introduction of the entightened, liberalizing forces of a pure Gospel among the masses in Roman Catholic countries—even though in those countries, as in heathen, the door of entrance for the Gospel was closed and nothing was possible save the Secret dissemination of the word of Christ. The first speaker of the evening was the Roy. N. H. Scheack. Of Brooklyn, who spoke of the progress of the Roman Catholic Church in the United States, how it had become, in fact, the established Church of New York, controlling the ballet box, and through it the Legislature, even though the ideas which it had demounced as heresies in the mediaval ages and which it still denounced, were the fundamental principles of the political faith of Americans. He also showed how the Catholic Church hoped to Romanize the Caited States of the future by influencing the plastic minds of the present children, and then denounced the Catholic Institutions which are solied chartlies as so many outposts of the Papal propaganda. After this gentleman the Rev. Mess s. Riey, of Mexico, and Peck, of Albany, spoke, the former of whom described the persecutions of the Projectants in Mexico, and also the growing disgust of the people to the doctrines of Rome; and the later spoke of the Catholic as so many superstitious sincers on the road to death, from which path it should be striven to save them.

Howard Mission and Home for Little

Wanderers.
The ninth anniversary of the Howard Mission and Home for Little Wanderers was held last evening at the Academy of Music. The attendance was large and enthusiastic. Addresses were made by Rev. M. B. Anderson, of Rochester University; Rev. T. De-B, Anderson, of Rochester University; Rev. T. DeWitt Talmadge, Brooklyn, and Rev. Norman Seaver,
Brooklyn, The children of the Mission to the number of about three nundred occupied the stage from
the footlights to the rear. They were neatly
and picturesquely attired in white and
pink muslin, and presented a very interesting and impressive p.c.ure to the eye.
The singing was conducted by Mr. Theodore E.
Perkins, assisted by Miss C. V. Hutchings, whose
voice and manner were particularly admired. The
music was by Grafulla's band, and left nothing to
be desired. Rev. W. C. Van Meter and several members of the Board of Managers occupied seats on the
stage. A solo and chorus, called "Hemember the
Poor," sung by the children, drew forth much applause. "Driven from Home," by Miss Hutchings, was an especially effective piece of
vocalism. "The Golden Star," a pretty, sentimental composition, was sung by two handsome little girls, alded by a chorus from
all the children. "Sweet By and By," by a very tiny
but exceedingly interesting child, was the last of the
musical performance. Rev. Mr. Talmadge made a
few remarks blended of humor and pathos and Mr.
Seaver spoke pertinently and well quon the happy
fruits of the Howards Mission. The large audience
dispersed after ten o'clock, well gratified with the
evening's entertainment.

A mass meeting of the Universalists' Woman's Centenary Aid Society was held last evening in the Bleecker street church (corner of Downing street). Although the church was not crowded quite a large audience were present, most of whom seemed to be deeply interested in the object of the meeting, which was principally to raise that part of the Murray Fund of \$200,000, for which the ladies of the church assumed the responsibility.

The exercises were opened with prayer by the

The exercises were opened with prayer by the Rev. Dr. Chapin. It was then announced that as Mrs. Mary C. Livermore, formerly of Chicago, now of Boston, had not arrived, it would be necessary to have the exercises that were included for the last to come first. Mrs. Livermore entering the church at that time it was put to the vote of the meeting whether they would first listen to the address and their attend to the missionary business, or vice versa, and it was voted unanimously that the address and the attend to the missionary business, or vice versa, and it was voted unanimously that the address should come first. Mrs. Livermore was accordingly introduced to the audience. In commencing her address she said that a little over a year ago she went with a party of friends via the Pacific Raifroad to Omaha. While on that road away out in the parties and not a habitation in sight, they were surprised to observe the train come to a halt. Anxious to know the reason they asked the conductor for an explanation, and he said the train had reached the first one hundred mile stone and all passengers generally liked to stop and look at it. The speaker said that Universalism had also reached its one hundredth mile stone; it was one hundred years since the foundation of the society, and it would be well to pause and consider hundred years since the foundation of the society, and it would be well to pause and consider the past and the future—what had been accomplished and what yet remained to be. The speaker then referred to someof the work of the past that had been accomplished, and urged her hearers to begin with a determination to do the remaining work as God would have it done. At the close of the address the audience were called upon to contribute to the Murray fund. Mrs. Daniel Smith and some eight or ten others gave \$100 each. When it was announced that the lady presidetress of the society—Mrs. Soles—had volunteered to give one-tenth of all she possessed—\$100—the announcement was received with appliance. The total amount raised was not stated. After the subscriptions had all been received the meeting adjourned and

scriptions had all been received the meeting adjourned and

The missionary meeting was called to order. The chairman, on taking his seat, said the Universalists have attempted a great many difficult things, and had been successful, but if they could hold two successful meetings in one evening, and one of them at such a late hour as the present, they could do a little more than he thought. After the transaction of some business the meeting adjourned, to meet in the same place Wednesday evening next.

Institution for Deaf Mutes.

annual meeting of the members of the Mott Memorial Institution for the Improved Instruction of Deaf Mutes was held last evening at No. 330 East Fourteenth street, Dr. M. umentnal, the president, in the chair. The Blumenthal, the president, in the chair. The principal, Professor F. A. Rising, read an interesting report, setting lorth the modus operandi of instruction and the progress of the pupils. The mutes are taught to read and speak the lips—a system which has prevailed throughout Germany for the last 100 years, and which is now spreading over France and England, and was three years ago introduced into this country. A legislative appropriation of \$10,000 gives the means for enlarged accommodations. There are about 600 active members and this number is rapidly increasing. There are twenty-eight pupils in the institution. The treasurer's report showed the receipts for the last year to be, from donations, \$1,088 \$2; interest, \$218 \$4; from members, \$3,852; from pupils, \$4,635 72. Expenditure, \$9,685 53. Dr. Biumenthal was re-elected President and Mr. Isaac Rosenfeld Treasurer.

National Temperance Society.

Last evening the National Temperance Society held their annual anniversary, in the hall of the Cooper Union, and to say the hall was crowded conveys a very inadequate idea of the manner in which brave men and fair women were jammed together, like so many sardines in a box. A giee cinb, composed of about thirty ladies and gentlemen, entertained the vast audience "between acts" with fine music.

about thirly ladies and gentlemen, electrimed the vast audience "between acts" with fine music. Among many others the club sang a very pretty song, called "Rippling, Sparkling Rills;" and an old lady, sitting near the reporters, who had evidently misunderstood Mr. Dodge when he announced the title of the song, wanted to know of one of the scribes "why on earth them folks meant to be singing about Ripping, Spanking Bill for."

After a few remarks by Mr. William Dodge the Rev. Dr. Hall was introduced to the audience and addressed them for about ten or fifteen minutes. He said it was no uncommon thing to hear men quote the Bible in defence of strong drinking. They say that whie is a creature of God, and that men should take a little for their stomach sakes. Dr. Hall acknowledged that it was, perhaps, well for persons to take "a little" for such purposes, but it should be a very little. He did not, however, say anything about taking gin. After Dr. Hall had concluded his remarks Mr. Dedge introduced the Rev. Dr. McDermit, who arrived yesterday morning per steamer Scotia from Liverpool. The Doctor, upon making his appearance, was foundly and enthusiastically applauded by the nudence. He also, like his predecessor, spoke but about fitteen minutes, during which time he told several very amusing, and one or two very touching anecdotes to illustrate the diered results intemperance is producing through a large portion of the world.

But the great feature of the meeting was the ad-

they wished, but warned them of the fearful effects of gin.

No scoper had Mr. Gough subsided, amid the deatening shouts of the audience, than a tremendous shout of "Horace! Horace!" was heard upon all sides, nor would the admirers of the Tribune philosopher be quieted until that worthy made his appearance upon the platform and favored them with one of those pecularly faceinating smiles of his and let drop from his aged lips a few words of wisdom and encouragement.

After Mr. Greeley had finished his brief remarks the glee club sang another of their cold water songs, when the assemblage dispersed.

Steamship Northampton, —, New Haven for New York, to Murray, Ferris & Co. The N has been purchased by Murray, Ferris & Co, and is now at the Delamater Works, being repaired.

Sebr Sudding Star (Br.), Merriam, Windsor, English New York, with plaster to Cranda Windsor, English New York, with plaster to Cranda Windsor. Boctor, upon making his appearance, was foundy and enthusiastically applauded by the audience, He also, like his predecessor, spoke but about fiteen minutes, during which time he told several very amusling, and one or two very touching anecdotes to illustrate the direful results intemperance is producing through a large portion of the world.

But the great feature of the meeting was the address of Mr. Gough, which lasted about an hour, during which time the vast assemblage was either bursting with laughter or wiping away the tears which would, in spite of themselves, rise to the surface and in many instances actually slopped over. In the course of the speaker's variegated remarks he alluded, in an exceedingly pathetic manner, to an insanc kiea that some persons have recently fallen into, namely, that gain and milk is good as a stimulant. He gave the assemblage the Drivilege of drinking all the milk assemblage the Drivilege of drinking all the milk

SARSAFARILIAN BESOLVENT.

SARSAPARILIAN RESOLVENT.

Every drop of the Sarsaparillan Resolvent communicates through the Blood, Sweat, Urine, and other fluids and julces of the system, the vigor of life, for it repairs the wastes of the body with new and sound material. Scro'ula, Consumption, Glandular Disease, Ulcers in the Throat, Mouth, Tamors, Rodes is the Glands and older parts of the system, Sore Eyes, Strunctons discharges from the cars and the Mouth, Tamors, Rodes, Strunctons discharges from the cars and the Head, Ring Worm, Salt Rheum, Eyrsipelase Sores, Salt Head, Ring Worm, Salt Rheum, Elysipelase Sores, Salt Head, Ring Worm, Salt Rheum, Elsen Salt Head, Ring Worder of Modern Chemistry, and a few days' sac will prove to any person using it for either of these forms of disease its potent nower to cure them. If the patient, daily becoming reduced by the wastes and decomposition that is continually progressing, succeeds in arresting these wastes, and repairs the same with new material made from healthy blood, and this the Sarsaparillian will and does secure, a cure is certain; for when once this remedy commences its work of purification, and succeeds in diminishing the loss of wastes, its repairs will be repid, and every day the patient will feel lumself growing better and atroper, the food digesting better, appetite improving and flesh and weight increasing. Price one dollar per bottle.
